THE FACTS

Architectural Design Films are Innovative self-adhesive flexible laminate films that have been specially developed for the architectural display and refurbishment market. They can be applied indoor on most flat or slightly curved surfaces.

SELF-ADHESIVE

Architectural Design Films have a high quality adhesive that allows application onto most surfaces including Plywood and MDF (preferably pre-coated), solid wood, plastic, metal and most lacquered surfaces.

TEXTURED

Architectural Design Films have beautiful textures that create visual impact as well as being realistic to the touch. Our wood ranges really do look as good as wood!

HIGH QUALITY

Architectural Design Films come between 200-400 micron thickness, depending on the film. This product offers exceptional resistance to water, dirt, abrasion, UV rays and wear (yellowing, cracking, scaling, delamination).

CONFORMABILITY

The film delivers excellent application characteristics with great conformability and can cope easily with irregular surfaces and moderate curves.

PVC FILM

Architectural Design Films are multi-laytered self-adhesive flexible laminate PVC films.

Backing Film

QUICK AND EASY

Architectural Design Films have a high quality adhesive allowing easy removal of entrapped air which makes it easy to install ensuring removal of surplus air during the installation process.

CERTIFICATIONS

- Rated A+ on VOC tests for indoor emissions.
- UV and Fire resistant.

Architectural Design Films

Specifications

CHARACTERISTICS		VALUE	
Material	Film	Polymeric PVC	
	Adhesive	Solvent pressure sensitive acrylic adhesive	
	Release Liner	Silicon coated PE paper	
Thickness	Film Adhesive	Some designs vary in thickness (200~400micron)	
	Release Liner	140 Microns	
Maximum Roll Size (all films)		1220mm x 50mtr	
Ideal Installation Temp Range		15~25°C Min 12°C Max 35°C	
Adhesive Force		20 Min after installation	2.0kg/inch
		24 Hours after installation	2.3kg/inch
		3 Days after installation	2.3kg/inch
		7 Days after installation	2.3kg/inch
Expected life		10 Years for indoor, vertical application with no direct UV exposure.	

Rated A+ on VOC tests for indoor emissions. UV and Fire resistant.
