

GAZEBO

The gazebo frame is made of aluminium, with a double hexagonal profile (the outer profile is 40x40x1mm; the inner profile is 35x35x1mm). If the gazebo cannot be mounted with pins to the ground, you can choose 7,50kg concrete weights.

	Printing technology	Material	Packaging weight	Package dimensions
Gazebo 3x3m	sublimation	Tent 280g/m ²	29kg	159x26x26
